Location: Gujarat, India

PROFESSIONAL SUMMARY

Computer Engineering student with a strong interest in Artificial Intelligence, Machine Learning, Backend Development, and Cloud Engineering. Interested in developing intelligent software applications by integrating AI/ML capabilities with reliable backend systems. Familiar with REST API development, database management, and programming concepts. Currently expanding technical knowledge in AI/ML, cloud technologies, and scalable software development through practical learning and projects.

EDUCATION

Government Engineering College, Palanpur **2023 – 2027**
Bachelor of Engineering (B.E.) in Computer Engineering
Gujarat Technological University (GTU)

- Currently pursuing 7th Semester.
- CGPA (up to 6th Semester): 6.91

Higher Secondary Certificate (HSC) : 63%
Secondary School Certificate (SSC) : 85%

TECHNICAL SKILLS

Programming:	Java, Python, JavaScript, C/C++
AI / Machine Learning:	Machine Learning Fundamentals, Python-based ML, AI Integration Concepts
Backend Development:	Node.js, Express.js, REST APIs, CRUD Operations
Databases:	MongoDB, MongoDB Atlas, MySQL
Cloud & DevOps:	Cloud Computing Fundamentals, Docker, Git, GitHub
Tools:	VS Code, Postman, GitHub

INTERNSHIPS & TRAINING

Backend Development Intern – CodeGen *10 July – 10 August*

- Gained practical exposure to backend development and REST API implementation.
- Worked with backend technologies, API routing, database operations, and application development.

Cloud Computing – Skill-Based Training *15 Days*

- Completed 15 days of skill-based training in Cloud Computing.
- Gained exposure to cloud computing concepts and cloud technologies.

PROJECTS

Slotify – Appointment Slot Management REST API
Node.js, Express.js, MongoDB, Mongoose

- Developed a RESTful API for managing appointment slots with complete CRUD functionality.
- Implemented API endpoints to create, retrieve, update, and delete appointment slots.
- Integrated MongoDB Atlas using Mongoose for persistent database storage.
- Used environment variables with dotenv to manage application configuration and sensitive credentials.
- Tested API endpoints using Postman and maintained the project using Git and GitHub.

AREAS OF INTEREST

- Artificial Intelligence and Machine Learning
- AI Integration in Software Applications
- Backend Development and API Engineering
- Cloud Engineering and Deployment
